Plot locking & allocation management

02 REVENUE**Installments**

Automated SOAs & collection schedules

03 SALES**Commissions**

Zero-dispute broker & agent ledger

04 CONTROL**Governance**

Legal docs, audit logs & diaspora portal

STRATEGIC FOCUS

The Five Operational Leaks Draining Developer Margins

Real estate development companies rarely fail due to lack of land or buyer demand. They fail due to operational opacity—when spreadsheets, WhatsApp chats, and disconnected accounting cannot scale with transaction volume.

1. "Who owns this plot?"

The Leak: Disconnected spreadsheets cause double-reservations, lost reservation fees, and conflicting plot allocations.

NAW Solution: Centralized real-time inventory engine with automatic plot locking during active reservations.

2. "Who has paid what?"

The Leak: Buyers on 6–24 month payment plans miss installments while accounts teams waste hours compiling manual ledgers.

NAW Solution: Automated milestone payment engine with SMS/email due reminders and 1-click Statements of Account (SOA).

3. "Who gets how much commission?"

The Leak: Unclear realtor splits and delayed payouts cause disputes, driving top external brokers to rival developers.

NAW Solution: Automated commission ledger with multi-tier team splits, override rules, and instant payout vouchers.

4. "Why aren't our leads closing?"

The Leak: 60% of high-intent inquiries drop off after site inspections because sales reps fail to execute structured follow-ups.

NAW Solution: Automated inspection scheduling, driver/agent dispatch, and systematic WhatsApp/email nurturing flows.

5. "Can our diaspora buyer see everything from anywhere in the world?"

The Leak: High-net-worth diaspora buyers in the UK, US, and Canada hesitate or pause installments due to fear of fraud and lack of verified construction reporting.

NAW Solution: Dedicated 24/7 Diaspora Investor Portal providing live payment ledgers, downloadable official PDF receipts, and verified milestone drone/photo progress.

"Foreign CRMs manage contact conversations. NAW PropertyFlow manages Nigerian property transactions. From plot layout to final allocation letter, it provides the single operating system of record."

PRODUCT ARCHITECTURE DIRECTIVE — NAW PROPERTYFLOW

PLATFORM ARCHITECTURE

Pillars 01 & 02: Inventory Control & Revenue Operations

Engineered around Nigerian estate layouts, land titles, and installment structures to give your operations and finance teams total operational clarity.

PILLAR 01 Inventory & Plot Allocation Engine

Manage multiple estate layouts (Guzape, Katampe, Airport Road, Kyami, Ibeju-Lekki) with real-time status visibility across every single unit.

- ✓ **Plot Grid & Dimensions:** Track 250sqm, 500sqm, and 1,000sqm plots with corner-piece and commercial tags.
- ✓ **Automated Plot Locking:** Lock plots for 48–72 hours during active reservation to prevent double allocation.
- ✓ **Interactive Layout Visualizer:** Color-coded visual inventory (Available, Reserved, Under Offer, Allocated).
- ✓ **Estate Milestone Tracker:** Link plot releases to survey approvals, clearing, fencing, and AGIS milestones.

PILLAR 02 Installment & Revenue Engine

Structure flexible payment plans with automated milestone invoicing, installment schedules, and Nigerian bank-transfer reconciliation.

- ✓ **Custom Payment Schedules:** Outright, 3-Month, 6-Month, 12-Month, and 24-Month custom milestone plans.
- ✓ **1-Click Statements of Account:** Generate branded, audit-ready SOAs with complete payment ledgers instantly.
- ✓ **Automated Installment Due Triggers:** Proactive SMS and email alerts sent 7 days and 2 days before payment due dates.
- ✓ **Split Bank Reconciliation:** Reconcile direct transfers against multiple developer bank accounts with receipt audit trails.

Why This Matters for Cash Flow:

Developers using automated installment reminders experience observed pilot collection velocity improvements of up to 35%, significantly reducing stalled receivables on off-plan projects.

PLATFORM ARCHITECTURE

Pillars 03 & 04: Sales Engine & Operational Governance

Equip your marketing teams to convert high-value leads while giving executive leadership full financial control, document automation, and NDPA compliance.

PILLAR 03

Sales, Inspections & Realtor Networks

Organize external realtors, broker hierarchies, and buyer inquiries into a structured high-converting sales machine.

- ✓ **Realtor Commission Engine:** Multi-tier commission calculation, team leader overrides, and automated payout vouchers.
- ✓ **Site Inspection Logistics:** Schedule site visits, assign drivers/inspectors, and automate post-inspection follow-up.
- ✓ **Multi-Channel Lead Pipeline:** Capture leads from WhatsApp, Instagram, Google Ads, and referral links into one pipeline.
- ✓ **Automated Drip Sequences:** Trigger targeted WhatsApp and email property updates based on buyer interest level.

PILLAR 04

Governance, Legal & Back-Office Control

Automate legal paperwork, internal expenses, multi-branch payroll, and diaspora transparency with enterprise security.

- ✓ **1-Click Document Automation:** Generate Offer Letters, Deeds of Assignment, and Allocation Letters in 3 seconds.
- ✓ **Diaspora Investor Portal:** 24/7 client dashboard for overseas buyers with verified payments and milestone updates.
- ✓ **Integrated Expense & Payroll:** Track estate development capex, vendor payouts, and run monthly staff payroll.
- ✓ **NDPA 2023 Compliant Security:** Granular role permissions, tenant database isolation, and complete immutable audit logs.

The Executive Command Advantage:

Managing Directors gain real-time visibility: exact cash collected, overdue installments, top-performing agents, project expense burn, and estate inventory absorption from a single dashboard.

MARKET DIFFERENTIATION

Why Generic Software Fails Nigerian Developers

Foreign CRMs treat property development like retail eCommerce, while generic accounting packages cannot handle estate layouts, plot allocations, or Nigerian realtor commission splits.

Operational Requirement	NAW PropertyFlow	Foreign CRMs (HubSpot/Salesforce)	Spreadsheets & WhatsApp
Estate Plot Grid & Allocation Locking	✓ Native Out-of-the-Box	✗ Not Supported	⚠ High Double-Allocation Risk
Milestone Installment Engine & Auto SOAs	✓ Automated 1-Click Ledgers	✗ Requires Custom Dev	⚠ Manual Compilation Errors
Multi-Tier Realtor Commission Splits	✓ Automated Vouchers & Ledgers	✗ Not Supported	✗ Constant Commission Disputes
Instant Deeds & Allocation Letters	✓ 3-Second PDF Generation	⚠ Expensive Plugins	✗ Manual Word Typing (Hours)
Verified Diaspora Investor Portal	✓ Included for All Clients	✗ Expensive Per-Seat Fees	✗ None (WhatsApp Screenshots)
Integrated Naira Payroll & Expense Hub	✓ Native ERP Module	✗ Requires Extra Software	⚠ Disconnected Records
Data Protection & Regulatory Compliance	✓ NDPA 2023 Aligned	⚠ Foreign Jurisdiction Only	✗ Unsecured Local Files

The Operational Consolidation:

NAW PropertyFlow replaces 5 to 7 fragmented tools (CRM, Excel registers, Word templates, Invoicing tools, Dropbox, and payroll sheets) with **one cohesive developer operating system** built specifically for Nigerian real estate reality.

BUSINESS CASE

Measurable Economic Return for Developer Leadership

Deploying NAW PropertyFlow delivers an immediate return on investment by accelerating installment collections, eliminating manual overhead, and building ironclad diaspora trust.

+35%

Observed Installment Collection Speed

15 hrs

Saved Per Admin/Week on Document Prep

100%

Auditable Commission Record Accuracy

2.8x

Observed Diaspora Buyer Conversion Rate

ZERO-DOWNTIME DEPLOYMENT

White-Glove 72-Hour Onboarding & Free Migration

Free Data Extraction & Cleaning

01

Our technical team extracts, standardizes, and imports your existing Excel plot registers, client ledgers, and payment history into your isolated tenant within 24 hours.

Role-Based Team Training

02

Targeted physical or virtual onboarding sessions for accounts, sales executives, legal officers, and agency heads with complete Nigerian workflow video tutorials.

Go-Live & Dedicated Support

03

Launch your branded client portal, generate 1-click receipts, and unlock full executive reporting with dedicated Abuja/Lagos account manager support.

Complete Data Sovereignty & Security:

Your land records and financial ledgers are protected by AES-256 encryption. You retain 100% data ownership with instant raw data export capabilities anytime.

CONSULTATIVE TRANSFORMATION

Transform Your Developer Operations Today

Experience how your real estate business will run with an institutional operating backbone before making any long-term commercial commitment.

Free Real Estate Operations Audit & Pilot

Schedule a complimentary 30-minute operational health check. We will analyze your plot management, installment follow-ups, and commission workflows, providing a diagnostic report and a **14-day fully configured team pilot** with free data migration.
