CONSULTATIVE PROTOCOL

The 3-Step Consultative Introduction Model

Partners do NOT deliver software demonstrations or handle data migrations. Your role is identifying operational challenges and connecting executive leadership.

1 Identify Operational Pain Points

Identify developers struggling with spreadsheet plot tracking, commission arguments with realtors, delayed installment follow-ups, or diaspora buyer skepticism.

2 Offer the Free Operations Audit

Position the **30-Minute Real Estate Operations Audit & Free Spreadsheet Migration Offer** using our institutional advisory script.

3 Executive Hand-Off & Payout Settlement

Introduce the developer via WhatsApp/Email to our Enterprise Strategy team (+234 810 135 8139). We conduct the audit, pilot, and onboarding—crediting your bank within 48 hours of contract sign-off.

ADVISORY SCRIPT TEMPLATE

Executive Conversation Starter (for MDs & Developers):

"Good day [Name], I noticed your active projects across [Location]. Most developers at your scale lose substantial cash flow to spreadsheet plot double-allocation, manual SOA reconciliation, and unorganized diaspora reporting. NAW PropertyFlow is currently offering a complimentary 30-minute Real Estate Operations Audit that maps out leakages and migrates existing spreadsheets to their cloud platform for free. Would you like me to connect you with their Enterprise Lead?"
