

ENTERPRISE ARCHITECTURE SPECIFICATION

The Real Estate Developer Operations Platform

An exhaustive functional breakdown of the 12 core subsystems, automated workflows, document generation engines, accounting hubs, and NDPA 2023 security layers powering Nigerian property developers.

PILLAR 01 — INVENTORY 01. Plot & Layout Allocation	PILLAR 02 — REVENUE 02. Installments & Auto SOAs	PILLAR 03 — SALES 03. Realtor & Commission Hub	PILLAR 03 — SALES 04. Lead & Inspection Manager
PILLAR 03 — SALES 05. Drip Nurturing Sequences	PILLAR 04 — CONTROL 06. Legal Document Factory	PILLAR 04 — CONTROL 07. Diaspora Investor Portal	PILLAR 04 — CONTROL 08. Project Milestones & Vault
PILLAR 02 — REVENUE 09. Expense & Cash Accounting	PILLAR 04 — CONTROL 10. HR, Leaves & Payroll	PILLAR 04 — CONTROL 11. Targets & Staff Submissions	PILLAR 04 — CONTROL 12. Multi-Branch & Security

PILLAR 01 — INVENTORY CONTROL

1. Smart Plot & Layout Allocation Engine

Centralized inventory control engineered to prevent double-allocations and manage Nigerian estate layouts.

 **Multi-Estate Plot, Unit & Prototype Registry**

Operational Value: Designed to prevent double allocation through centralized real-time plot locking and multi-stage status management across all sales channels.

Tracks every plot number, square meterage (250sqm, 500sqm, 1,000sqm), prototype building type (Detached Duplex, Terrace, Penthouse), layout coordinates, and live status (Available, Reserved, Under Inspection, Allocated, Sold).

- Instant Real-time Estate Occupancy Rate
- Phase & Sector layout categorization

- Plot Locking during inspection/booking
- Plot swapping & reassignment audit trail

PILLAR 02 — REVENUE OPERATIONS

2. Milestone Installment & Billing Engine

Automated payment plans, scheduled milestone reminders, and instant digital statements of account.

 **Automated Nigerian Payment Schedules & SOA Engine**

Operational Value: Automated milestone alerts significantly accelerate installment collections and eliminate manual debt ledger reconciliation.

Configures flexible installment structures (Outright, 3-Month, 6-Month, 12-Month, 24-Month). Automatically computes principal paid, outstanding balances, overdue penalties, and issues instant Statements of Account (SOA).

- Automated SMS & Email due-date alerts
- Direct Bank Transfer split reconciliation

- 1-Click PDF Payment Receipts & Invoices
- Comprehensive Client Ledger audit log

PILLAR 03 — SALES ENGINE

3. Realtor & Affiliate Commission Management

Complete commission audit trails, multi-tier agency overrides, and automated payout vouchers.

 Multi-Tier Commission Engine & Broker Ledgers

Operational Value: Automated commission calculation and transparent digital vouchers eliminate disputes, building trust with top external broker networks.

Supports individual agents, brokerage groups, and multi-tier network hierarchies. Automatically splits commissions upon verified client deposits, calculates team leader overrides, and tracks pending vs approved payouts.

- Automated Commission Voucher Generation
- Split-deal commission allocation
- Tiered percentage rules per estate
- Realtor leaderboard & performance stats

PILLAR 03 — SALES CONVERSION

4. Lead Pipeline & Site Inspection Logistics

Full-funnel lead tracking from initial WhatsApp inquiry to physical inspection and closing.

 Inspection Logistics & Follow-Up Automation

Operational Value: Recovers high-intent drop-offs by automating physical site visits, driver dispatch, and systematic post-inspection closing workflows.

Captures leads across Meta Ads, WhatsApp, website forms, and walk-ins. Schedules physical site inspections with vehicle/driver assignment, sends automated SMS directions to prospects, and logs inspection outcome feedback.

- Visual Lead Stage Pipeline (Kanban)
- WhatsApp Direct Communication Hub
- Inspection Booking & Vehicle Logistics
- Daily Follow-Up Task Queue for Sales Reps

PILLAR 03 — AUTOMATED NURTURING

5. Drip Nurturing, Sequences & Broadcast Campaigns

Multi-channel drip sequences and automated marketing broadcasts that nurture high-value prospects.

Automated Drip Sequences & Mass Broadcasts

Operational Value: High-ticket land decisions require 30 to 90 days of consistent trust-building; automated nurturing keeps your estate top of mind.

Enroll leads automatically into step-by-step timed email & SMS drip sequences (e.g. Day 1: Welcome Brochure, Day 4: Inspection Video, Day 10: Infrastructure Progress Update, Day 21: Limited Promo Offer). Send mass promotional broadcasts to targeted buyer segments.

- Multi-Step Drip Sequence Builder
- Bulk SMS & Email Broadcast Campaigns
- Automated Trigger Enrollments by Lead Stage
- Campaign Engagement & Delivery Tracking

PILLAR 04 — LEGAL GOVERNANCE

6. Automated Legal & Commercial Document Factory

Dynamic generation of branded, watermarked, legal agreements and official letters in seconds.

Instant Real Estate Legal Document Automation

Operational Value: Eliminates manual clerical typing errors, saves hours of legal admin, and delivers standardized professional agreements instantly.

Merges buyer information, plot coordinates, agreed price, and milestone schedules directly into pre-approved legal templates. Produces high-resolution PDF documents with company branding, official watermarks, and verification codes.

- Provisional & Final Offer Letters
- Provisional Plot Allocation Letters
- Contract of Sale & Deed of Assignment
- Template Versioning & Dynamic Placeholders

PILLAR 04 — GLOBAL TRUST

7. Diaspora Investor Self-Service Portal

Secure, transparent web portal for overseas buyers in the UK, USA, Canada, and UAE.

 24/7 Overseas Client Experience & Trust Portal

Operational Value: Equips developers to sell globally without friction—giving overseas buyers self-service access to verified receipts and site progress.

Each client receives private credentials to view their properties, transaction histories, download official stamped receipts, review construction milestones, and communicate directly with their assigned relationship officer.

- Real-time payment history & balance lookup
- Construction progress photos & video logs
- Direct download of all issued certificates
- Client KYC update & documentation vault

PILLAR 04 — INFRASTRUCTURE & ASSETS

8. Project Milestones & Cloud Document Drive

Live civil engineering milestone tracking and integrated enterprise document storage.

 Site Development Milestones & Cloud Document Vault

Operational Value: Consolidates heavy architectural files, survey plans, and AGIS approvals alongside site delivery progress timelines.

Track civil engineering phases with completion percentages, target vs actual completion dates, and progress logs. Built-in cloud drive organizes layout diagrams, survey plans, and video assets in folder hierarchies with role-based access.

- Project Development Milestone % Progress
- Integrated Folder & Cloud File Storage
- Secure Storage for AGIS, C of O & Survey Plans
- Target vs Actual Delivery Date Variance

PILLAR 02 — FINANCIAL OPERATIONS

9. Expense Tracking & Financial Accounting Hub

Complete operational oversight: vendor payouts, site development costs, and project margins.

 Real Estate Expense & Cash Flow Manager

Operational Value: Stops cash flow leakage by enforcing strict category allocation, vendor audit trails, and estate-level profitability tracking.

Log and categorize expenses per estate project (e.g., Fencing, Infrastructure, Road Grading, Survey, AGIS Title regularizations, Marketing). Provides real-time profit and loss metrics per development.

- Project-based expense categorization
- Net cash flow & liquidity projections
- Vendor payment records & receipts attachment
- Multi-currency (NGN, USD, GBP) record support

PILLAR 04 — HUMAN CAPITAL

10. HR Suite, Leave Management & Payroll Engine

Automated monthly staff payroll, salary structures, leave management, and appraisals.

 Comprehensive HR Management & Payroll Generation

Operational Value: Centralizes employee records, tracks attendance/leaves, and generates compliant monthly payslips in one platform.

Define custom salary structures (Basic, Housing, Transport, Allowances, Deductions). Generate monthly payslips with 1-click PDF export. Manage employee leave requests, new staff onboarding checklists, and performance appraisals.

- Automated Monthly Payslip Generator
- Staff Onboarding & Task Checklists
- Leave Request & Approval Workflows
- Performance Reviews & Disciplinary Records

PILLAR 04 — PERFORMANCE CONTROL

11. Department Targets & Daily Staff Submissions

Set monthly sales quotas, monitor department KPIs, and track daily staff metric submissions.

 Target Setting, Quotas & Metric Submissions

Operational Value: Gives executive leadership real-time visibility into sales rep activity, inspection volume, and quota achievement.

Set granular targets for Sales, Legal, Operations, and Marketing teams. Staff submit daily activity metrics against assigned targets. Automated department reports give leadership instant executive clarity.

- Monthly Sales Rep Revenue Quotas
- Daily Staff Activity Metric Submissions
- Department Target vs Actual Variance
- Automated Executive Department Reports

PILLAR 04 — GOVERNANCE & SECURITY

12. Multi-Branch Operations & Role Security

Multi-location enterprise branching, granular permission matrices, and immutable audit logs.

 Multi-Branch Hierarchy & Role-Based Permissions

Operational Value: Isolates branch financial records while enabling consolidated executive oversight and compliance with NDPA 2023.

Manage multiple physical branches under one umbrella. Enforce granular role-based permissions (Super Admin, MD, Branch Manager, Accountant, Sales Executive, Legal Officer, Front Desk, Realtor) with immutable action logs.

- Multi-Branch Data Separation & Roll-up
- Granular Permission Matrix per User Role
- Immutable Security & Action Audit Trail
- Global Keyboard Quick Search (Ctrl+K)

ARCHITECTURE STANDARDS

Enterprise System Specifications

A quick technical reference of system requirements, security protocols, and infrastructure.

Technical Parameter	Specification & Architecture Standard
Deployment Mode	Cloud-Hosted Multi-Tenant SaaS or Dedicated Private Tenant Instance
Data Protection	Nigeria Data Protection Act (NDPA 2023) Aligned, Role-Based Access Controls
Data Encryption	TLS 1.3 In-Transit & AES-256 Encrypted Tenant Database At-Rest
Document Engine	Dynamic PDF rendering with Vector Graphics, QR Verification & Watermarking
Marketing APIs	Automated SMS Gateway, WhatsApp Direct Integration & SMTP Drip Sequencer
Backup & Redundancy	Automated Daily Encrypted Database Snapshots with 99.9% Uptime SLA
Data Portability	Full CSV/Excel/PDF export capabilities for all clients, properties, and financials
