

OPERATIONS TRANSFORMATION BLUEPRINT & COMMERCIAL TERMS

Enterprise Operations Transformation Proposal

A tailored operational roadmap to migrate your active estates, plot allocations, and installment ledgers into a unified, NDPA-compliant digital operating backbone with zero business disruption.

TRANSFORMATION OBJECTIVES

1. Centralize 100% of estate plot inventory to eliminate double-allocation risks.
2. Automate milestone installments and 1-click Statements of Account (SOA).
3. Launch a 24/7 verified self-service portal for diaspora investors in the UK, US & Canada.
4. Establish transparent, automated multi-tier realtor commission payout vouchers.

DIAGNOSTIC FINDINGS

Current Operational Architecture & Risk Points

Based on our consultative operational audit, here is an executive synthesis of existing workflow bottlenecks and their business impact.

1. Dispersed Spreadsheet Plot Registers

Observed State: Plot allocations across active estates reside in separate Excel workbooks managed by multiple staff. Real-time availability is uncertain during high-volume sales launches.

Target State: Unified cloud inventory register with automated plot locking during reservations and instant executive layout occupancy analytics.

High Operational Risk

2. Delayed Installment Follow-Up & SOA Reconciliation

Observed State: Accounts team manually reviews bank statements and compiles customer statements in Microsoft Word/Excel upon request, delaying collection velocity.

Target State: Automated installment milestone schedules with 7-day proactive SMS/email due reminders and 1-click audit-ready PDF Statements of Account.

Cash Flow Leakage

3. Realtor Split Ambiguity & Manual Commission Vouchers

Observed State: Commission split calculations between agency heads and sub-agents are processed manually via WhatsApp, leading to occasional disputes.

Target State: Automated commission ledger with multi-tier percentage rules, team overrides, and instant digital payout vouchers.

Realtor Churn Risk

Strategic Outcome:

Transitioning these manual workflows to NAW PropertyFlow eliminates operational friction, accelerates cash collections, and elevates your corporate brand with diaspora buyers.

ZERO-DOWNTIME DEPLOYMENT

The 4-Stage Turnkey Implementation Roadmap

Our dedicated engineering squad extracts, standardizes, and imports your historical data with zero interruption to your ongoing sales activities.

Stage 01 • Day 1

Data Ingestion & Dedicated Tenant Provisioning
Provision isolated cloud database with custom branding. Extract existing Excel plot sheets, client ledgers, and payment history.

Stage 02 • Days 2-3

Data Normalization & Dual-Verification Sign-Off
Standardize plot dimensions (250sqm/500sqm/1,000sqm), reconcile client outstanding balances, and verify historical records against bank logs.

Stage 03 • Days 4-5

Role-Based Staff Onboarding & Practical Training
Conduct customized hands-on training for Accounts, Sales, Legal, and Operations teams. Deliver executive dashboard overview for Managing Director.

Stage 04 • Days 6-14

14-Day Pilot, Diaspora Portal Launch & Go-Live
Execute active transactions on NAW PropertyFlow with dedicated on-site/virtual engineering support. Activate diaspora investor logins.

Dedicated Onboarding Guarantee:
Your assigned Technical Account Manager remains attached to your team throughout the pilot phase to ensure smooth adoption and immediate query resolution.

COMMERCIAL STRUCTURE

Transparent Enterprise Investment Schedule

All-inclusive enterprise licensing covering unlimited plot inventory, dedicated tenant infrastructure, and free data migration.

Implementation Deliverable	Standard Value	Enterprise Proposal Rate
Historical Spreadsheet Data Extraction & Migration	₦350,000	INCLUDED FREE
Role-Based Staff Training & Video Knowledge Base	₦200,000	INCLUDED FREE
14-Day Full-Team Pilot Access	₦150,000	INCLUDED FREE
Annual Growth Developer Plan (Up to 10 Estates)	₦2,340,000 / yr	₦2,340,000 / yr (₦195,000/mo)
Enterprise Conglomerate Plan (Unlimited Branches)	₦5,400,000 / yr	₦4,500,000 / yr (Discounted)

ECONOMIC RETURN MODEL

Projected 12-Month Financial Impact:

- **Recovered Installment Velocity:** +₦15M–₦35M faster cash conversion from active milestone plans.
 - **Diaspora Closing Boost:** 2.8x higher trust conversion on overseas sales campaigns.
- **Admin Hours Saved:** 60+ hours per month across accounts and legal paperwork.
 - **Eliminated Clerical Errors:** Complete prevention of double-allocation liabilities.

EXECUTION AGREEMENT

Authorisation & Pilot Activation

Sign below to authorize the free spreadsheet data extraction and activate your 14-day dedicated enterprise pilot.

Terms of Engagement & Service Level Agreement (SLA)

- 1. **Uptime Guarantee:** 99.9% availability with automated daily encrypted snapshots.
- 2. **Data Sovereignty:** Client retains 100% legal ownership of all plot and financial records.
- 3. **Confidentiality:** Non-disclosure and NDPA 2023 compliance strictly enforced.
